+91 7339047488 | Bangalore, India

EDUCATION

B.Sc COMPUTER SCIENCE
Sri Meenakshi Vidiyal Arts & Science College, 2020-2023 | Tamil Nadu
CGPA: **72.56%**

HSC - **67%**
Gov Hr Sec School, Tamil Nadu | 2020

SSLC - **75%**
Gov Hr Sec School, Tamil Nadu | 2018

CERTIFICATION

LAHTP (**L**earn the **A**rt of **H**acking **T**hrough **P**rogramming) - Legacy
LAHTP – Advance

SKILLS

Programming
PHP | JAVASCRIPT | PYTHON

Front End
HTML5, CSS3, React.js, Next.js, AJAX

Backend & Frameworks
Laravel, CodeIgniter, Node.js

Database: MYSQL

Architecture & APIs
RESTful APIs, MVC, RBAC, JWT Authentication

Stacks: LAMP | PHP Full Stack

DevOps & Deployment
AWS, cPanel, Plesk, Linux (CLI), CI/CD

Tools

Git | GitHub | Bitbucket
Postman | PHPUnit |
Wireshark | Nmap

EXPERIENCE

Web Digital Mantra | FULL STACK LARAVEL DEVELOPER
Sep 2024 - Present | Bangalore, India

- Contributing to a growing eCommerce startup by delivering scalable solutions that enhance merchant operations, customer engagement, and platform security.
- **API & Architecture Development:** Built scalable RESTful APIs and modular backend systems ensuring clean, maintainable, and well-integrated architecture.
- **AI-Driven Work Optimization:** Leveraged AI-assisted tools and automation to optimize development workflows, accelerate debugging, improve code quality, and enhance feature delivery efficiency across the eCommerce platform.
- **Testing & CI/CD:** Integrated **automated testing** (PHPUnit), code quality checks, and collaborated on **CI/CD pipelines** for faster deployments and reliable releases.

Course Connect | PHP FULL STACK DEVELOPER
Apr 2024 - Sep 2024 | Bangalore, India

- **Led Back-End Development:** Played a key role as a backend developer, ensuring the scalability and robustness of web applications.
- **Multi-Domain Management:** Developed and maintained web applications across multiple domains, including courseconnect.in, blog.courseconnect.in

PROJECT

SCHOOL MANAGEMENT SYSTEM - ERP SaaS | LINK

- Architected a **multi-tenant SaaS-based ERP** with modular **RBAC** for Admin, Students, Teachers, Staff, and Parents.
- Implemented **secure authentication (Bearer/session-based), middleware authorization, data encryption**, and protected RESTful APIs.
- Built **REST API-driven architecture** for seamless web & mobile application integration with real-time data sync.
- Integrated **AI-powered report analysis** to generate intelligent insights on student performance, attendance trends, and academic progress using data-driven analytics.
- Automated **attendance, assignments, fee management, and performance analytics** with optimized database design.

CLOUD INDIA HUB - Domain & Hosting Management | LINK

- Architected and developed a **scalable domain & hosting management platform** enabling **domain registration, web hosting, SSL provisioning, and cloud service management** via Reseller Club **API integration**.
- Engineered a **real-time domain availability search & automated registration system** with optimized API calls and performance tuning for high-speed user experience.
- Designed a **secure, API-driven backend architecture** with payment gateway integration, automated billing & invoicing workflows, and role-based client dashboards.
- Implemented **secure authentication and data protection mechanisms** to ensure secure financial and user data handling.

COURSE CONNECT - Organization | LINK

- Developed a **React.js / Next.js-based full-stack web application** using **and server-side rendering (SSR)** for improved SEO and performance.
- Implemented **authentication & authorization (JWT/session-based), protected routes, and state management**, ensuring secure and scalable access control.
- Applied **web security best practices** including XSS protection, CSRF tokens, input validation, and prevention of SQL injection.
- Integrated third-party **REST APIs** for OTP verification, WhatsApp messaging, and email services using **PHPMailer**, enabling real-time user communication.
